2012 FIA GT3 EUROPEAN CHAMPIONSHIP TEAMS, DRIVERS AND CARS PRESENTATION DAY

GENERAL INFORMATION

Championship Slovakia Ring 19-21 August 2012

General Information

One key aspect of the FIA GT3 European Championship is the smart presentation of the teams, drivers and their cars. Therefore an official presentation chart was created in its inaugural season and subsequently adapted to the colours of each manufacturer represented. Since then, the teams and drivers have followed these guidelines, which make their presentation very professional and unique. Additionally, other elements were added to this concept, such as the team personnel presentation, the pit panels and the presentation of the cars. This document outlines all these elements, which must be in place from the first round and throughout the season.

1. PIT PANELS

Design information

Please note that the following elements have to be represented on each panel:

- The FIA GT3 European Championship, the car manufacturer and tyre manufacturer logos
- The profile of the FIA GT3 car
- The background design

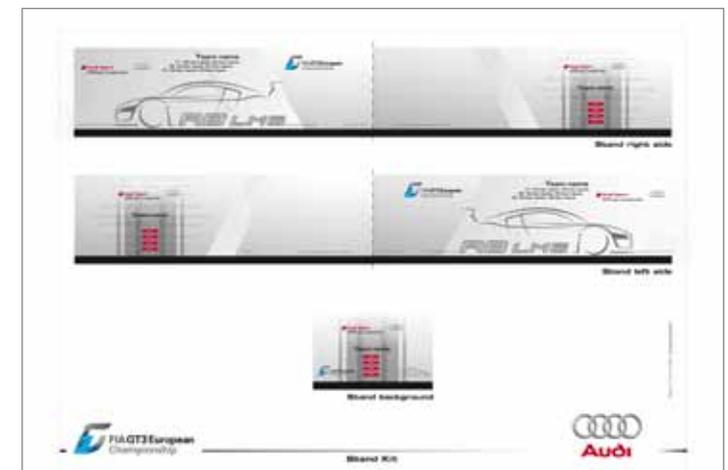

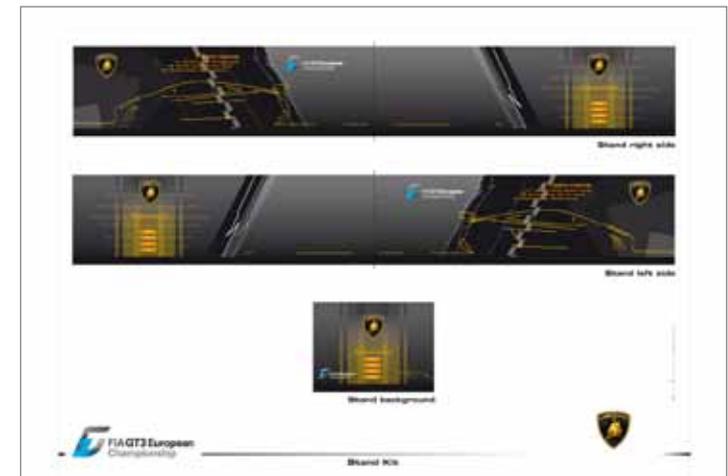

Please note that the name of the team, drivers and sponsors should also be indicated.

Suggested dimensions

- Right and left side: 14m x 2m of overlapping backdrops
- 1 rear backdrop (4m x 2m)

Depending on the team's allocation at the circuit (garage or awning), the pit panels have to present the official design.

The garage or awning must be fitted out with floor covering (see article 37 of the Sporting Regulations).

General Information

2. DRIVER OVERALL

Please note that the driver overall design presented in this document is mandatory for all drivers and the instructions given below should be followed carefully.

SRO will provide each team and/or driver with the graphic design including the official logos to be used by the production company of their choice.

FIA GT3 European Championship Logo

- location front: top left chest (heart side), above the tyre manufacturer logo - approximate dimensions: 13cm width.
- location back (centre) - approximate dimensions: 25cm width.

Car Manufacturer Logo

- location front : right side chest (opposite FIA GT3 and tyre manufacturer logos)
- approximate dimensions: in harmony with the dimension of the FIA GT3 logo
- location back
- approximate dimensions: in harmony with the dimensions of the FIA GT3 logo.

Tyre Manufacturer Logo

- location front: top left chest (heart side) below the FIA GT3 logo
- approximate dimensions: see tyre manufacturers graphic chart for more details

3. TEAM PERSONNEL

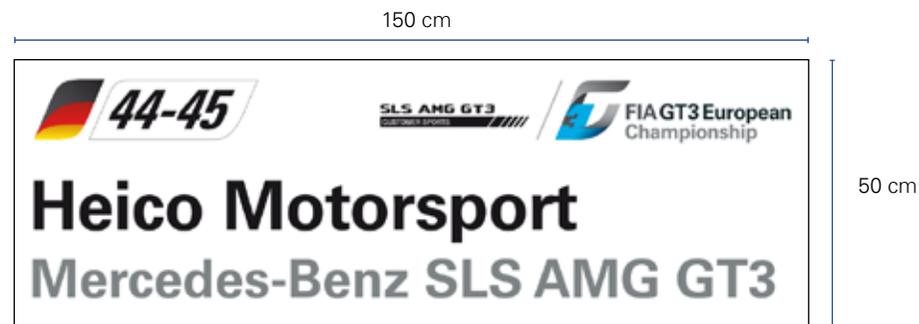

All team personnel (limited to six persons for a two-car team, including the team manager - see article 37 of the Sporting Regulations) must wear uniform track clothing which should present the FIA GT3 & tyre manufacturer logos (see eg. Michelin).

General Information

4. PIT PANEL

SRO will provide each team with one pit board confirming the name of the team, its nationality, the make and model of the car and its racing numbers to be presented at the entrance of the pit or under the awning.

5. THE CARS

The two cars belonging to the same team must bear decorations of a similar design, but may display different sponsors.

The cars must always be in impeccable condition when presented to scrutineering and the racing numbers have to be on the cars.

On page 32 and 36, you will find a display of the decals on the GT3 car. Please note that all the stickers will be provided by SRO at each round.

The Stand Kit layout includes three main panels:

- Stand right side:** Features the Audi Sport Official Customer logo, Audi logo, FIA GT3 European Championship logo, Team name, driver names (#1, #2, #3), and a stylized R8 LMS car graphic with the text 'R8 LMS' and 'TYRE SUPPLIER LOGO'.
- Stand left side:** Mirrors the right side panel with the Audi Sport logo and Audi logo on the left, and the FIA GT3 European Championship logo, Team name, driver names, and R8 LMS car graphic on the right.
- Stand background:** A vertical panel featuring the Audi Sport Official Customer logo, Audi logo, Team name, driver names, FIA GT3 European Championship logo, and a small R8 LMS car graphic.

At the bottom of the kit are the FIA GT3 European Championship logo and the Audi logo.

The image displays three design templates for a pit stand kit, each featuring a white outline of a GT3 car on a dark background. The templates are labeled as follows:

- Stand right side:** Shows the right side of the car. It includes a Chevrolet logo in the top left, a 'TYRE SUPPLIER LOGO' box, and a 'Team name' field with sub-fields for driver names. The FIA GT3 European Championship logo is in the top right. A vertical list of names is on the right side.
- Stand left side:** Shows the left side of the car. It includes a Chevrolet logo in the top right, a 'TYRE SUPPLIER LOGO' box, and a 'Team name' field with sub-fields for driver names. The FIA GT3 European Championship logo is in the top left. A vertical list of names is on the left side.
- Stand background:** A smaller template showing the back of the car with a Chevrolet logo at the top and a vertical list of names.

At the bottom left, the FIA GT3 European Championship logo is followed by the text 'Stand Kit'. At the bottom right, there is a large Chevrolet logo. A vertical line of small text on the right side reads 'Agency: [unreadable]'.

2012 FIA GT3 EUROPEAN CHAMPIONSHIP TEAMS, DRIVERS AND CARS' PRESENTATION CHART
PIRELLI GRAPHIC CHART

Pirelli - Graphic Chart

Each team must refer and abide by the specific identification manual of its tyre manufacturer.

1. Drivers using Pirelli tyres must wear the Pirelli podium cap from the time it is provided by Pirelli, up the end of the podium ceremony, except during the national anthems. During the press conference (after the race), drivers must wear the Pirelli podium cap or must put the Pirelli cap visible on the desk in front of them.
2. All teams using Pirelli tyres must place its identification on the cars according to the design and specifications of the Pirelli Visual Identity Guidelines in the size and in the locations specified (please see thereafter).
3. All the drivers using Pirelli tyres must affix the Pirelli badges on the driver's overall according to the design and specifications of the Pirelli Visual Identity Guidelines in the size and in the locations specified (please see thereafter).
4. All the team members using Pirelli tyres must carry the Michelin badges on their team work clothing according to the design and specifications of the Pirelli Visual Identity Guidelines in the size and in the locations specified (please see thereafter).
5. All the teams using Pirelli tyres must apply the Pirelli branding in the pit garage in a visible position according to the design and specifications of the Pirelli Visual Identity Guidelines in the size and in the locations specified (please see thereafter and the previous pit panel designs).
